Rice :: SRI Cultivation :: Weed Management

Weed Management

- Using rotary weeder / Cono weeder / power operated two row weeder
- Moving the weeder with forward and backward motion to bury the weeds and as well to aerate the soil at 7-10 days interval from 10-15 days after planting on either direction of the rows and column.
- Manual weeding is also essential to remove the weeds closer to rice root zone.

Weeder should be Moved in both Directions
